The South Etobicoke Youth Assembly is been a leader in innovative youth programming. Our mandate is to empower and increase the capacity of youth to make positive change. SEYA leads the way in youth leadership development, experiential learning, peer support, anti-opression training and lifeskills education. SEYA workshops capture the interest of youth through multi-media presentations and interactive activities.

Many communities face challenges such as poverty, criminal and gang activity, and a lack of community resources, such as recreation centres or libraries. SEYA programming is based on community development principles to combat those issues. More than a dozen young leaders who have grown through the SEYA experience are now major young community champion contributors.
